

Authenticated User Log In on Zoom

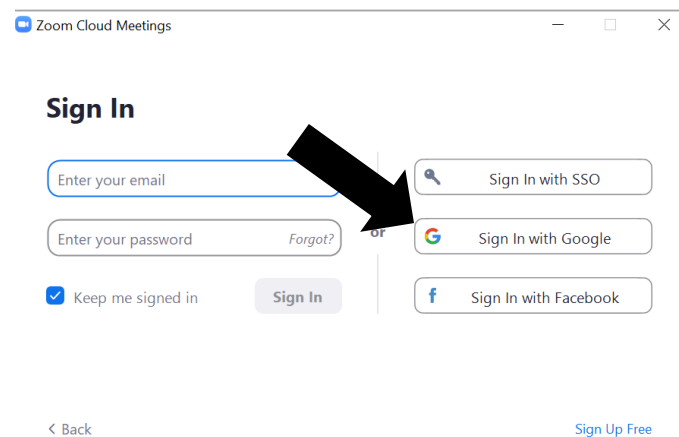

When you log on to Zoom, your child will need to be logged in with their @rcs-k12.us account from now on.

This provides a more secure meeting for students and teachers and is now required by RCS. If you do not log on with their account, you will receive a blocked or error message.

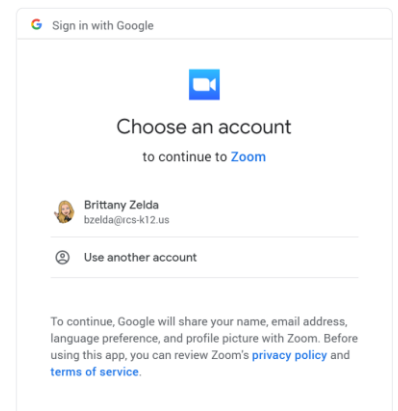

It is best if students log in on one device that they can use consistently. They will remain logged into Zoom with their RCS account for future meetings if they log in on one device for daily use.

Below are the directions for how to log on with their Rochester account.

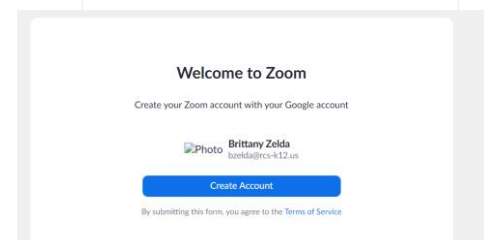

1. On the Zoom account sign in page, select "Sign In with Google" **DO NOT** sign in on the left. (Note, if you are already logged into Zoom, press sign out at the top to be redirected to this sign in page.)

2. Choose their @rcs-k12.us account. If it is not registered on their device select "use another account" and type in their district log in and password.

3. You will need to follow the on screen prompts to set up an account through our district Zoom to join our meetings.

4. We will be changing our settings after 3 PM today. We suggest you log in with your child's username and password, to try and join the teacher's Zoom to make sure the waiting room "wait page" pops up. If you are in the waiting room, you have done this correctly and will be ready for the next meeting. "Leave the Meeting" at this point.
